Vidi Aquam, band from Milan born in 1994,walked in these years the ritual-esoteric path with the self-titled demo at first,in which the members Nikita (voice, last one of the original line-up), Trevor Northgate (Camerata Mediolanense, Northgate) and Stefano Saguatti (ex-Camerata Mediolanense) manage to anticipate the ritual, apocalyptic-folk wave so succesful nowadays,then they moved to dark-ambient in the style of Cold Meat Industry with their second demo "9.96", with a new line-up comprehending Nikita and Egon (industrial artist with different projects) plus Davide Del Col (Ornament) for live situation; at last,with their mini-cd "Queen os spades" they have reached the atmospheres well-known in the first productions of 4AD,with symphonic-industrial inserts.The new line-up is: Serena (voice),Daniele Viola (guitar,programming,percussion), Nikita (synth,programming,voice and percussion) and, from may 2001, FabioDeGiorgi(bass).
